

Recruitment Announcement

Department of Aeronautics & Astronautics and International Degree Program on Energy Engineering, National Cheng Kung University are now recruiting new faculties (any nationality) for teaching and research. Applicants have to meet the following requirements:

- Completed Ph.D. degree in related fields of sciences and engineering from an acknowledged university. Under the circumstance when the applicant has not yet acquired his/her Ph.D. degree by the time of submitting the application, proof of expected completion date by his/her advisor is needed.
- Expertises: aerodynamics, aircraft design, structure and materials (preferably on experiments), propulsion and combustion, solar photovoltaic, navigation control (preferably on flight mechanics), or smart grid.
- Capability of teaching in English.
- Willing to be mentor of international and local students and to provide assistance in recruiting international students.

Please send your resume with your expertise indicated (also including transcripts of both undergraduate and graduate programs), a publication list, three recommendation letters with recommenders' contact information, and an outline of teaching and research to the following address:

No.1, University Road, Tainan City, Taiwan 70101

Prof. Wei-Hsiang Lai

Chairman of Department of Aeronautics & Astronautics and International Degree Program on Energy Engineering, National Cheng Kung University

Deadline: Jan 31st, 2017
